

DISTRICT OPERATION DURING PUBLIC EMERGENCIES

The district believes that student learning is the heart of its core mission. While traditional in-person teaching continues to provide the greatest learning opportunity to all students, there may be rare and unusual circumstances that prevent the school community from convening in traditional in-person settings. At times of a public emergency declared by federal, state or local officials, the district will seek guidance and recommendations from federal, state and local agencies to assist in determining the safety of convening traditional in-person learning.

The Superintendent will facilitate the decision on class to class and will consult with the Board President on a building by building.

Following guidance and recommendations from federal, state, and local agencies when reasonably possible, the administration will create regulations related to district operations during a public emergency, including, but not limited to, student, employee and visitor safety and security; the use and safeguarding of district property; public meetings and events, and when applicable, measures to prevent or slow the spread of infectious disease.

These measures will be enforced for the period of time of the public emergency, or until the superintendent, in consultation with federal, state and local agencies determine it is appropriate for the safety measures to end.
