

STUDENT SUBSTANCE USE

The board believes it is imperative to promote the health and wellbeing of all students in the district. The district will provide a substance use prevention program and set restrictions on substance use by students in accordance with applicable law.

The board prohibits the distribution, dispensing, manufacture, possession, use, or being under the influence of alcohol, tobacco/ nicotine products, other controlled substances, or "look alike" substances that appear to be tobacco/nicotine products, alcohol or controlled substances by students while on school district property or on property within the jurisdiction of the school district including but not limited to: buildings, grounds, parking lots, school vehicles and personal vehicles while on the grounds, athletic fields/stands and dock areas; while on school owned and/or operated school or chartered buses; while attending or engaged in school activities; including school sponsored and nonschool-sponsored events and while away from school grounds if the misconduct will directly affect the good order, efficient management and welfare of the school district. "Controlled substances" in this policy refers to the misuse of both licit and illicit drugs.

The board believes such illegal, unauthorized or contraband materials generally cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees, or visitors.

Violation of this policy by students will result in disciplinary action including suspension or expulsion. Use, purchase or being in possession of tobacco/nicotine products for those under the age of twenty-one, may be reported to the local law enforcement authorities. Possession, use or being under the influence of alcohol and/or of a controlled substance may also be reported to the local law enforcement authorities.

Students who violate the terms of this policy may be required to satisfactorily complete a substance abuse assistance or rehabilitation program approved by the school board. If such student fails to satisfactorily complete such a program, the student may be subject to discipline including suspension or expulsion.

The board believes the substance abuse prevention program shall include:

- Age-appropriate, evidence based substance use prevention curriculum for students in grades kindergarten through twelve, which address the legal, social, and health consequences of tobacco and nicotine products, drug and alcohol use and which provide information about effective techniques for resisting social pressure to use tobacco, drugs or alcohol;
- A statement to students that the use of controlled substances and the unlawful possession and use of tobacco/nicotine products and alcohol is harmful to student wellbeing;
- Standards of conduct for students that clearly prohibit, at a minimum, the unlawful possession, use, being under the influence of or distribution of controlled substances, tobacco/nicotine products and/or alcohol by students on school premises or as part of any of its activities;
- A clear statement that disciplinary sanctions, up to and including suspension or expulsion and referral for prosecution, will be imposed on students who violate the policy and a description of those sanctions;
- A statement that students may be required to complete a substance use evaluation to determine whether substance use disorder treatment is recommended and if recommended, successfully complete an appropriate rehabilitation program;

- Information about drug and alcohol counseling and rehabilitation and re-entry programs available to students;
- A requirement that parents and students be given a copy of the standards of conduct and the statement of disciplinary sanctions required; and
- Notification to parents and students that compliance with the standards of conduct is mandatory.

It shall be the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.
