

## RESPONSIBLE TECHNOLOGY USE & SOCIAL NETWORKING

Computers, electronic devices and other technology are powerful and valuable education and research tools and, as such, are an important part of the instructional program. In addition, the school district depends upon technology as an integral part of administering and managing the schools' resources, including the compilation of data and recordkeeping for personnel, students, finances, supplies and materials. This policy outlines the board's expectations in regard to these different aspects of the school district's technology resources. Students, staff, and volunteers must conduct themselves in a manner that does not disrupt the educational process and failure to do so will result in discipline, up to and including student discipline under all relevant policies and discharge for employees. Responsible use includes compliance with applicable laws including but not limited to state instructional technology requirements governing student use.
